FUNCTION

Title page:
Cover plate: Geberit Sigma40, red gold

MAKE IT YOUR OWN

It's not just any bathroom, it's your bathroom. You select the tiles that reflect your style. You refuse to compromise in the selection of the tap for your washbasin. And here you will find just the right actuator plate for the WC to give your bathroom the crowning touch and pamper you with comfort functions. Because Geberit combines visual elegance with innovative functions.

WHY NOT TRY OUT YOUR OWN DESIGNS?

We have included actual-size illustrations of various actuator plates in the brochure for you. Fold back the left-hand side of the brochure, hold the design up to the wall and let your imagination run wild! Use these actual-size samples to select the actuator plate that appeals to you.

CUSTOMER-SPECIFIC FINISH

HARMONIOUSLY COORDINATED

When taps and actuator plates are perfectly coordinated, they open up entirely new dimensions in bathroom design. Customer-specific finishes allow Geberit Sigma40 actuator plates and Type 40 urinal covers to blend seamlessly with the overall aesthetic of bathroom fittings from leading manufacturers. The wide variety of colours on offer creates endless possibilities for on-trend bathroom design. Perfectly coordinated down to the last detail – from the WC to the washbasin to the urinal.

Bespoke design with
cohesive surface finishes
and colours.

GEBERIT DESIGN FAMILY

Seamless design. Toilet and urinal flush control actuation featuring a coordinated design: the result is a single design thread running through the whole bathroom. The flush actuations for urinals, which match the actuator plates for toilets, can either be actuated by hand (pneumatic) or via touchless technology (electronic, by means of infrared detection).

IR TOUCHLESS

FOR ANY APPLICATION

So that everything matches: used in combination with the matching concealed cistern, Geberit actuator plates in the Sigma range cover a wide variety of applications and comfort functions. The Geberit flushing system Omega offers great flexibility and particularly small actuator plates. Both flushing systems offer tool-free final installation and guaranteed spare parts availability for 50 years.

You therefore have a wide selection of both Geberit actuator plates and reliable Geberit installation elements for installation behind the wall. And Geberit actuator plates bear the name of the suitable cistern so that you can be certain that everything will match.

Geberit Sigma concealed cistern

- Construction height 112 cm
- Front actuation
- Barrier-free and height-adjustable models available
- Odour extraction (recirculating air / exhaust air)
- Suitable for Geberit remote flush actuation

Geberit Omega concealed cistern

- Completely flexible with construction heights of 112 cm, 98 cm and 82 cm
- Front actuation
- Additional top actuation with construction heights 82 cm and 98 cm
- Particularly small actuator plates
- Suitable for Geberit remote flush actuation

82 cm

DESIGN AND FUNCTION

Intelligent functions from Geberit. If you can start your toilet flush without touching it, if elegant colour effects add atmospheric moments to the time you spend in your bathroom, or if unpleasant smells are efficiently extracted even before anyone notices them, then this means your installer has built in state-of-the-art Geberit sanitary convenience in your new bathroom. And because durability and reliability are as much a part of Geberit as good design, you will enjoy your selection for years to come.

ODOUR EXTRACTION **FRESH AIR FOR EVERYONE**

Unpleasant odours in the toilet are a thing of the past. What is long since standard over every kitchen stove can now be applied in the bathroom. An effective way to get rid of unpleasant odours. The Geberit DuoFresh module removes the bad air directly from the WC ceramic appliance, purifies it using a ceramic honeycomb filter and then returns it to the room. This is extremely effective, as it prevents unpleasant odours from spreading throughout the bathroom in the first place, rendering air fresheners, lighting matches, opening windows and the like completely unnecessary. Thanks to a proximity sensor, the odour extraction always switches on automatically as soon as someone sits down on the toilet. The odour extraction is therefore also a great idea for guest WCs. Benefit from additional comfort thanks to an LED orientation light. The Geberit DuoFresh module can be easily installed in any Geberit Sigma cistern and can be combined with almost any actuator plate from the Sigma range.

GEBERIT REMOTE FLUSH ACTUATIONS MORE CONVENIENT BY FAR

The optimal solution. Regardless of the construction situation, using a remote flush actuation can be a the right choice. For instance, in order to locate the flush actuation at a different location, if the design for the WC flush control calls for small but elegant, or if using a Geberit Omega concealed cistern with low construction height causes forceful contact between the WC lid and the front actuation. For such cases, Geberit offers various remote flush actuators with pneumatic force transmission, which can be placed anywhere within a 1.70 m radius of the concealed cistern.

QUITE DISCREET IN FACT

Available as they are in a variety of colours and product materials, the Geberit cover plates open up new design opportunities. A tile-bearing version is available for a particularly discreet appearance.

TOUCHED A THOUSAND TIMES

The pneumatics of the Geberit remote flush actuators type 01 round and type 10 round have been tested for years of stress. The technology is based on air pressure (not on electrical current).

TECHNOLOGY AND DESIGN PERFECTLY MATCHED

All components in the Geberit WC system match perfectly. As a result, they offer convincing added value in the system. End customers appreciate the outstanding flush performance and the whisper-quiet technology, which make the toilet quieter and easier to clean. Installers are impressed by easy and flexible installation. The high quality and exceptional warranty services ensure that you can enjoy your new WC for a long time to come.

The Geberit WC system: Five system benefits

EASY INSTALLATION

OUTSTANDING FLUSH PERFORMANCE

LOW-NOISE FLUSHING SYSTEM

COMPREHENSIVE DESIGN OPTIONS

PROVEN QUALITY AND LONG-TERM
SPARE PARTS AVAILABILITY

The Geberit WC system. Rely on unique technology combined with a modern look and clever features.

OUTSTANDING FLUSH PERFORMANCE

The asymmetrically designed, completely rimless inner bowl guides the water through the sanitary ceramic with exceptional flushing-out performance. The result is high performance and easier cleaning.

EASY INSTALLATION

The installation technology of the Duofix concealed cisterns from Geberit is characterised by a number of well thought-out details. Short working times and flexible customisation options speed up and simplify WC installation in any bathroom.

LOW-NOISE FLUSHING SYSTEM

The targeted water guide of the TurboFlush flushing technology and hydraulically optimised flushing technology behind the wall significantly reduce water noise. This brings more peace and quiet into the bathroom.

PROVEN QUALITY AND LONG-TERM SPARE PARTS AVAILABILITY

All components of the Geberit WC system are carefully developed and extensively tested in our own laboratories. Fifty years spare parts availability for all replaceable mechanical parts of the concealed cistern and actuator plate. This does not include certain functions of electronic products such as the DuoFresh odour extraction unit.

COMPREHENSIVE DESIGN OPTIONS

The Geberit WC system includes a large selection of high-quality actuation plates in many materials, colours and surfaces and in round and square shapes.

TODAY'S TOILETS ARE MOVING WITH THE TIMES

Electrical connections now come as standard. After all, you expect your bathroom to reflect your changing needs as well as the lifestyle trends that the future is likely to bring. In Geberit WC installation elements, you'll find everything completely prepared for the future – so it can accommodate any changes you want to make in the future, like retrofitting a Geberit AquaClean shower toilet, a convenient odour extraction unit or installing the coloured LED strips that come with the touchless Geberit actuator plate Sigma80.

1. Geberit DuoFresh module with integrated orientation light. Suitable for several actuator plates of the Sigma series.
2. Touchless Geberit actuator plate Sigma80, glass reflective.
3. The Geberit AquaClean Mera shower toilet with outstanding design and numerous comfort features.
