GEBERIT ACTUATORS FOR EVERY APPLICATION

TRIGGER POINTS

The Geberit actuator plates not only come in a large variety of designs, but also for every application. Be it at home, in a semi-public place like a hospital, or in a public place with a high traffic like e.g. an airport: there is an actuator plate for every requirement.

FEEL AT HOME

For the bathroom at home all options are available: there is a vast variety of designs to choose from, single flush, dual flush or stop-and-go flush. Even touchless solutions might be interesting, depending on your needs and bathroom design.

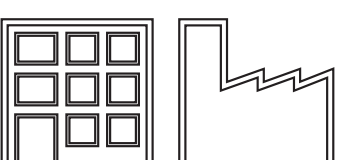

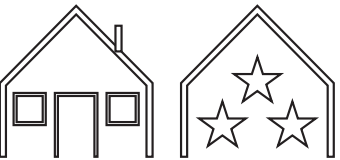

SEMI-PUBLIC SOLUTIONS

For hotels, restaurants or hospitals there are a lot of touchless actuators available that even offer a dual flush system, helping you saving water. Of course all aspects of hygienic requirements are covered.

HIGH-TRAFFIC PUBLIC PLACES

If you run a public toilet at a train station, an airport or in a night-club, you go for the vandal-proof actuators made of stainless steel. The infrared steered actuators that offer a single flush, cleaning automatically after every use, should also be in the centre of attention.

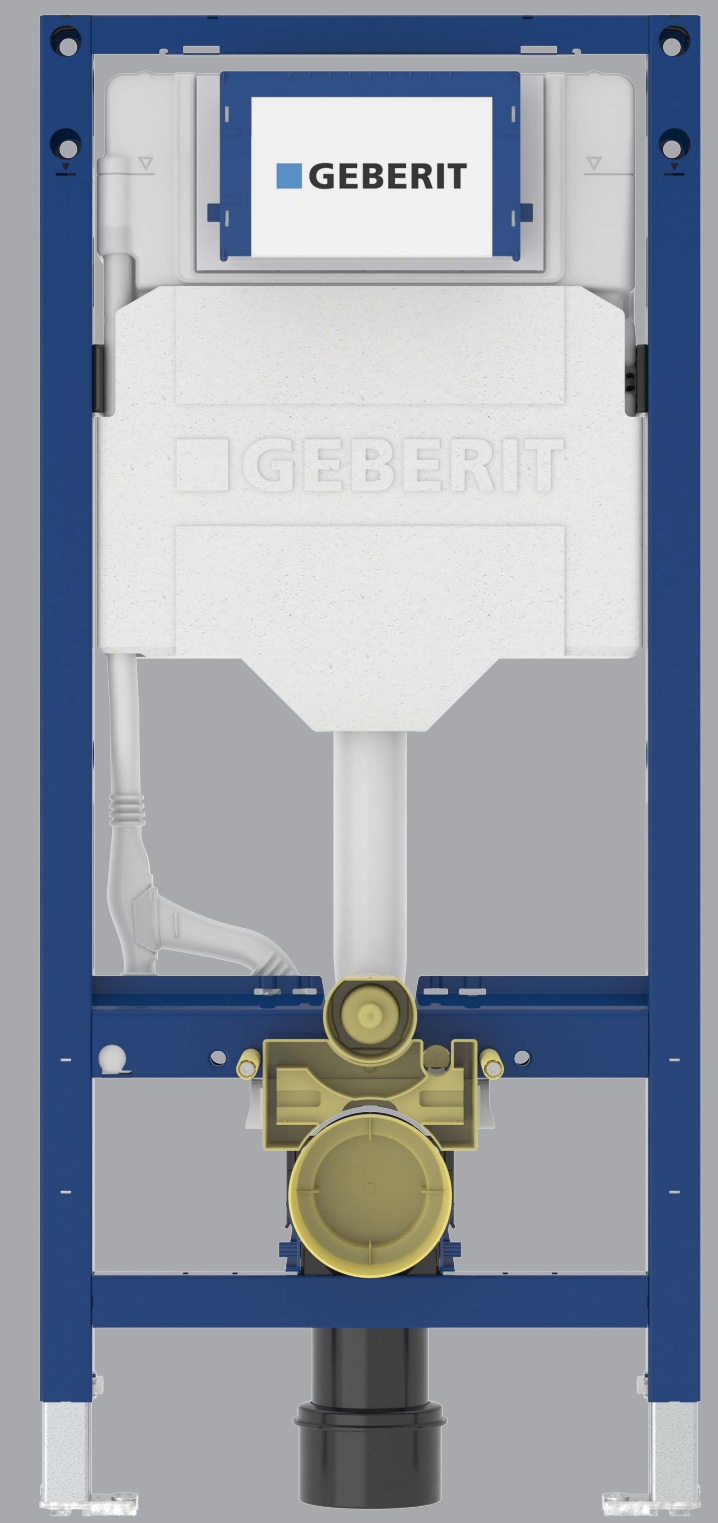

The Geberit actuator plate is the only part you see of the concealed cistern. It is a piece of design, a decoration item for your bathroom. At the same time it is functional and easy to clean. Whatever needs you have – there is the correct actuator plate. Choose from a wide variety of designs and materials.

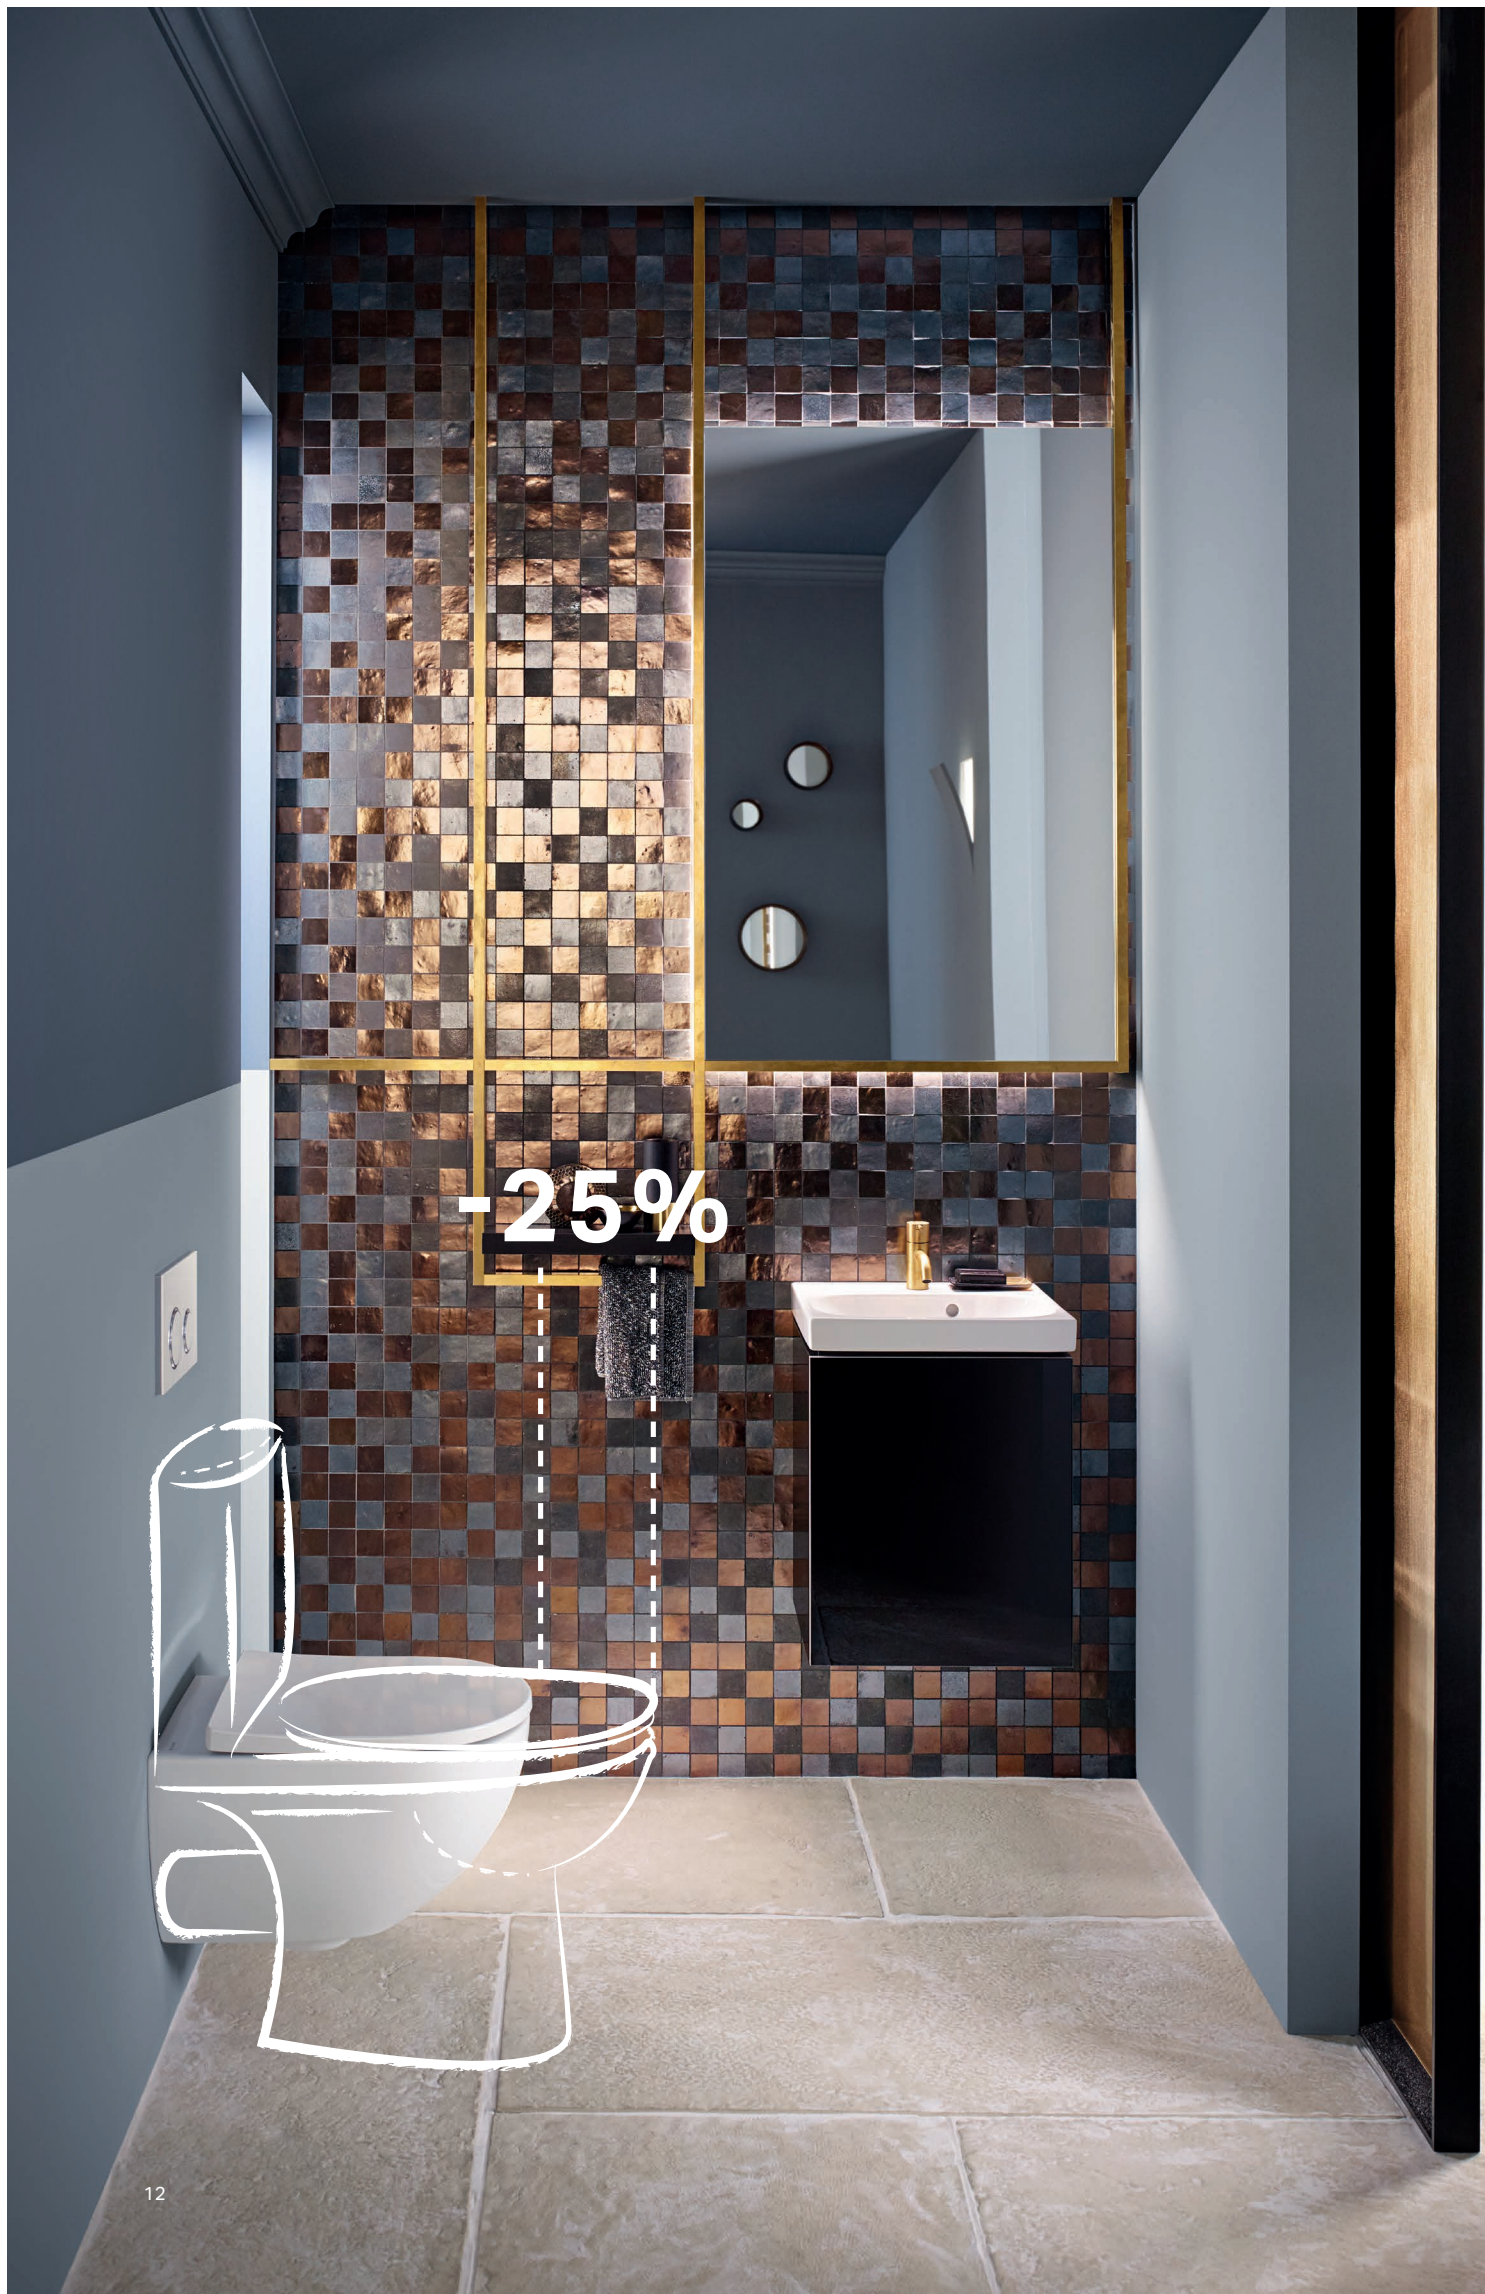

GEBERIT CONCEALED SOLUTIONS

THE TRADITION OF HIDING CISTERNS

In solid and drywall construction, the Geberit concealed cistern is the heart of millions of concealed installations in bathrooms. Every detail of this product is ingenious and has been proven a million times over. Plumbers and endusers have trusted the one-piece leak-proof cisterns from Geberit for more than 60 years.

- >60**
EVENTFUL HISTORY
Geberit has more than 60 years experience in the field of concealed cisterns. Since 1964 Geberit is working on product improvement and has constantly developed the quality and functionality of the cisterns.
- ★★★**
PREMIUM QUALITY
All products from Geberit are known for their very high reliability and durability. Proven Swiss technology for decades.
- 👍**
TRIED AND TRUSTED
The Geberit concealed cisterns have been installed worldwide, millions of times.
- 👁️**
BEAUTIFUL DESIGN
A concealed solution with a wall-hung WC and beautiful actuator plates offers a lot of design options for your bathroom.
- 💡**
INNOVATIVE AND FUNCTIONAL DESIGN
Actuator plates are available in an easy-to-clean coated option, in a vandal-proof, screwable version and almost all Sigma actuator plates can be combined with an odour extraction unit.
- 🏠**
WITHSTANDING HEAVY LOAD
The Geberit wall-hung solutions are designed and tested to withstand weights of 400 kg.
- 💧**
SAVING WATER
The water consumption can be sustainably reduced with a Geberit dual flush actuation for the WC.
- 🚽**
OPENING SPACE
As soon as the sanitary technology hides behind the wall, a new feeling of space is created. A wall-hung solution offers more freedom in your bathroom.
- 🧼**
EASY TO CLEAN
The fewer edges, joints and corners, the simpler to clean and more hygienic.
- ⚡**
LEAKPROOF
Every single cistern one-piece blow-mould and is tested on its leak-tightness before it is leaving the factory.
- 50**
50 YEARS SPARE PARTS AVAILABILITY
Geberit guarantees 50 years spare parts availability, on all replaceable mechanical parts of the concealed cistern, except for electronic product functions (e.g. DuoFresh).
- APP**
DIGITAL HELPERS
Easy planning with Geberit BIM data and ProPlanner. Recognising older products with the Pro App and directly ordering spare parts.
- 🏗️**
INSTALLATION SYSTEMS
Available for all Geberit installation systems: Duofix, GIS and Kombifix.
- ⚡**
ELECTRIC CONNECTION
The cisterns are prepared for a hidden or visible electric connection in case you want to upgrade your WC.
- 🚿**
GEBERIT AQUACLEAN SHOWER TOILETS
Perfectly prepared for the installation of Geberit shower toilets with innovative comfort-functions.
- 🌀**
HYDRAULIC KNOW-HOW
Optimised hydraulics for a perfect wash-out of Geberit WC ceramics, with water-saving flushing.

REASONS FOR WALL-HUNG CONCEALED SOLUTIONS

THE CONCEALED ADVANTAGES

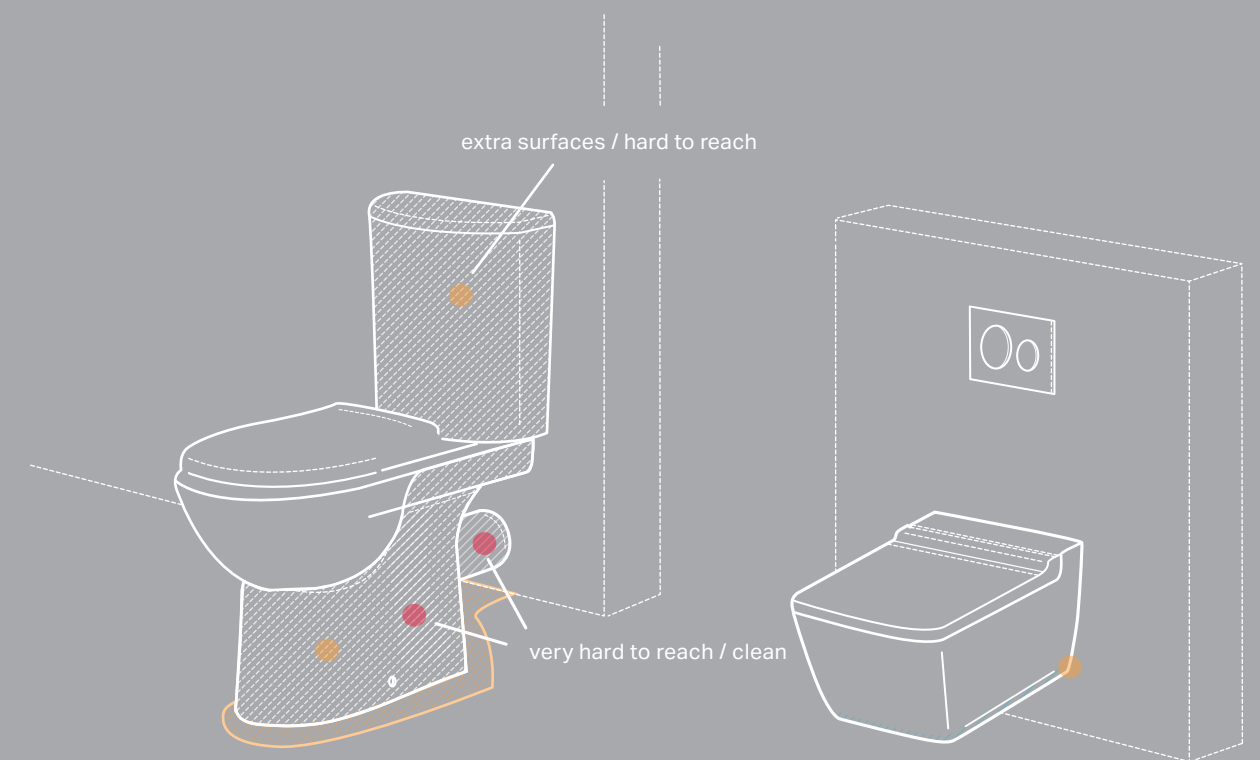

SUSTAINABLE

A wall-hung solution needs much less cleaning agent than a floor-standing toilet. You are saving money and you are protecting the environment.

HYGIENIC

A floor-standing toilet with an exposed cistern offers much more space that has to be cleaned than a wall-hung concealed solution. The latter has far less corners or edges where dirt, dust and hair can get stuck. Germs have nowhere to hide.

TIME-SAVING

More hygienic does not mean that you need more time for cleaning the bathroom. On the contrary: with a wall-hung solution you clean the toilet much faster.

CONCLUSION

Saving material and time for cleaning means: you save money. Especially in public and semi-public areas like hotels or office buildings this is important.

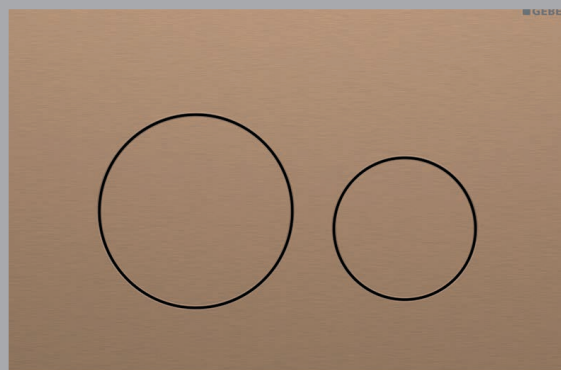

GEBERIT SIGMA CISTERNS TOUCHING DESIGN

STYLISH CALLING CARDS

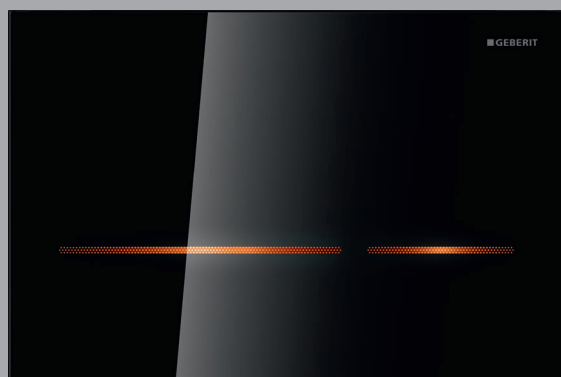

The Geberit Sigma concealed cisterns not only offer numerous installation possibilities, but also the widest range of stylish actuator plates. Be it for single flush, dual flush or stop-and-go flush, mechanical, pneumatic, hydraulic or touchless actuation.

Sigma50 square red gold / slate (art.no 115.670.JM.2)

Sigma40 round red gold (art.no. 115.628.QB.1)

Sigma80 square black glass (art.no. 116.090.SG.1)

Geberit ONE WC ceramic (500.202.01.1),
Geberit Sigma50 square actuator plate,
Geberit wall drain

FUNCTIONAL BEAUTY

With Geberit Sigma cisterns not only style moves into your bathroom, but also functionality. With a prewall construction you gain space for cosmetics or other bathroom items. Another possibility to give your bathroom a personal touch.

STATE-OF-THE-ART DESIGN

The Geberit Sigma concealed cisterns offer solutions to almost every building situation and to every design idea. Thus, it is possible to create extraordinary bathroom looks that meet all the requirements and expectations.

Geberit iCon WC ceramic with TurboFlush
(503.046.00.1), Geberit Sigma50 round actuator
plate, Geberit Variform washbasin and furniture,
Geberit Option Plus mirror

GEBERIT SIGMA UPGRADES

ADD THE ELEMENT WATER

GEBERIT AQUACLEAN

Modern shower toilets are hardly to be recognised as such at first glance. Geberit offers diverse AquaClean WC models with a lot of features to choose from. If you do not want to remove the existing WC ceramic, there is the possibility to add an AquaClean seat as an enhancement solution.

ODOUR EXTRACTION UNIT

Unpleasant odours are absorbed at once in the odour extraction unit. An active carbon filter eliminates odours before they spread. It starts automatically as soon as you sit down.

WHIRLSPRAY SHOWER TECHNOLOGY

The patented WhirlSpray technology enables a particularly direct and thorough cleaning. The reason for this is a pulsating shower spray refined through dynamic aeration.

DRYER

The dryer arm aligns itself automatically for optimum drying at the last position of the spray arm.

HEATING THE WC SEAT

The ergonomically optimised WC seat made of high-quality thermoset is equipped with an integrated heating element. Thanks to the proximity sensor, the WC seat waits until someone approaches before heating up.

Geberit One mirror cabinet, Geberit One
wall-mounted tap

GEBERIT SIGMA UPGRADES ADD THE ELEMENT AIR

GEBERIT DUOFRESH

What is standard in kitchens should also be introduced to bathrooms. The Geberit DuoFresh module provides a slot for a ceramic honeycomb filter and an orientation light that is triggered by a motion sensor. The module is easily installed and can be equipped with almost any actuator plate from the Sigma range.

↑
It's as simple as this:
Just open the actuator plate at the side.

↑
Insert the filter in the slot.

↑
Close the actuator plate and enjoy the fresh air in your bathroom.

↑
Geberit Smyle WC ceramic (500.683.01.),
Geberit actuator plate Sigma50 square with
DuoFresh module.

Geberit DuoFresh removes unpleasant odours right at the source. A ceramic comb filter purifies the air thoroughly and a fan conveys the cleaned air back into the room. An additional benefit offers a built-in LED orientation light. Just below the actuator plate a soft glow will guide you the way to the WC at night.

ACCESSIBLE

The ceramic honeycomb filter can be easily accessed via the actuator plate.

VISIBLE

An orientation light helps you at night to find your way.

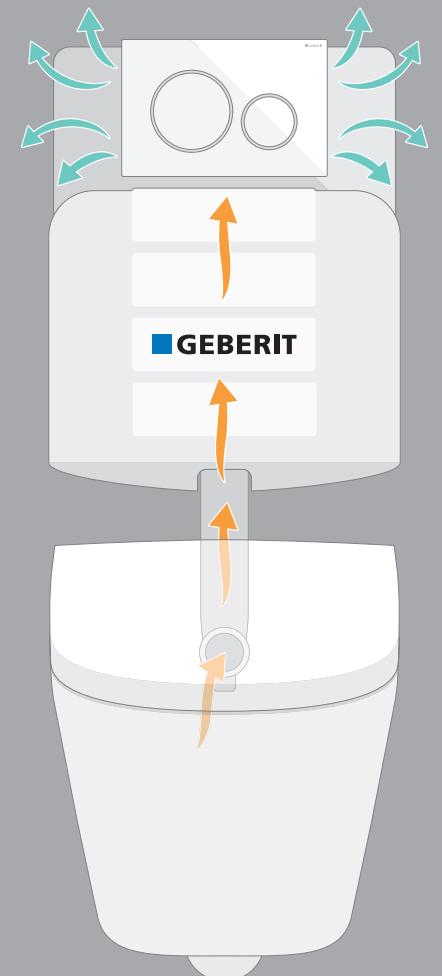

EFFICIENT

The air is purified by the ceramic honeycomb filter.

QUIET

A quiet fan conveys the purified air back into the room.

GEBERIT SIGMA SPECIAL SOLUTIONS

EASILY
ACCESSIBLE

The Geberit installation elements offer solutions to almost any construction situation. In public areas, in healthcare, in hotels or even in private bathrooms the request for barrierfree applications can be covered with the Geberit Duofix element with a Sigma cistern and various WC ceramics with an extra long projection.

↑
111.350.00.6
Geberit Duofix element for a barrier-free solution. The frame-width is reduced for the placement of support handles next to the element.

↑
111.790.00.1
Geberit Duofix element with mounting plate for support handles.

↑
Another special feature of the Geberit concealed cisterns is the tool-free maintenance.

OPTIONS WITH GEBERIT SIGMA CONCEALED CISTERNS:

	for solid wall	for drywall	GIS / Duofix System compatible	barrier-free solution	front actuation	top actuation	low-height	tool-free maintenance	odour extraction	AquaClean connection
Geberit Sigma	x	x	x	x	x			x	x	x
Geberit Omega	x	x	x		x	x	x	x		x
Geberit Delta	x	x			x					

Geberit Selnova WC ceramic with extra long projection (500.693.01.2), Geberit actuator plate Sigma10 round, GeberitOption mirror, Geberit Selnova Comfort washbasin, Geberit trap and shower drain.

GEBERIT OMEGA CISTERNS SMALL AND POWERFUL

Geberit Xeno² (500.500.01.1), Geberit Omega60 square actuator plate, top actuation with low height, Geberit CleanLine60

FREEDOM OF PLACE

If you want to have a clean front view, Geberit Omega is offering the solution. Geberit Omega cisterns can be activated from the top.

SMALL ACTUATORS

Beautifully designed small, elegant actuator plates: Omega20, Omega30 and the surface-even Omega60. Available in different styles and high-end materials.

Omega20 round black / bright chrome
(art.no. 115.085.KM.1)

Omega20 square matt chrome / bright chrome
(art.no. 115.080.JQ.1)

Omega60 square white glass
(art.no. 115.081.SI.1)

The Geberit Omega concealed cisterns are designed for low-height situations. But it is also a good choice if you just prefer a smaller size of the actuator plate.

Geberit AquaClean Mera (146.210.21.1), Geberit Omega60 square actuator plate, front actuation with standard height, Geberit CleanLine60.

GEBERIT OMEGA CISTERNS FOR LOW HEIGHTS SOLUTION PROVIDER IN NARROW SPOTS

Geberit Omega opens up unexpected opportunities when it comes to the design of your bathroom. Having the freedom of choice to install a top or a front actuation, there are no borders anymore to your creativity in bathroom design and the implementation of your ideas. Bottle-necks such as installations under windows and roof-pitches are elegantly mastered.

THREE CISTERN HEIGHTS
 The Geberit Omega concealed cistern can be installed at a height of 82 cm, 98 cm and 112 cm. No matter what installation height: the flush performance is outstanding. All the Omega cisterns come with a water-saving dual flush system.

FIT FOR ALMOST EVERY PREWALL
 With a minimum depth of 12 to 14 cm for the front actuation (depending on the chosen element) and a minimum depth of 17 cm for the top actuation, the Geberit Omega concealed cistern fits into nearly any prewall. It can be connected to the water supply from the rear as well as from the side. Installing the cistern and mounting the actuator plate can both be completed without special tools.

TOP OR FRONT – THAT IS THE QUESTION
 Depending on the construction situation, the actuator plate can be installed on the top or front of the cistern. Whatever your bathroom looks like, you have the choice. The Omega cisterns are designed in such a way that both options can be chosen freely. The Geberit Omega cisterns can be serviced without tools. This makes maintenance as easy as pie.

OPTIONS WITH GEBERIT OMEGA CONCEALED CISTERNS:

CONCEALED CISTERNS OVERVIEW

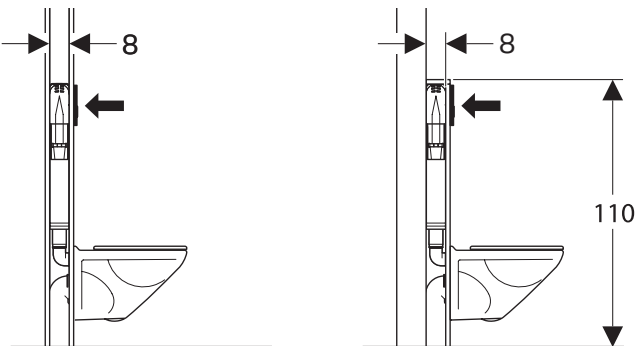

AT ONE **GLANCE**

Geberit concealed cisterns

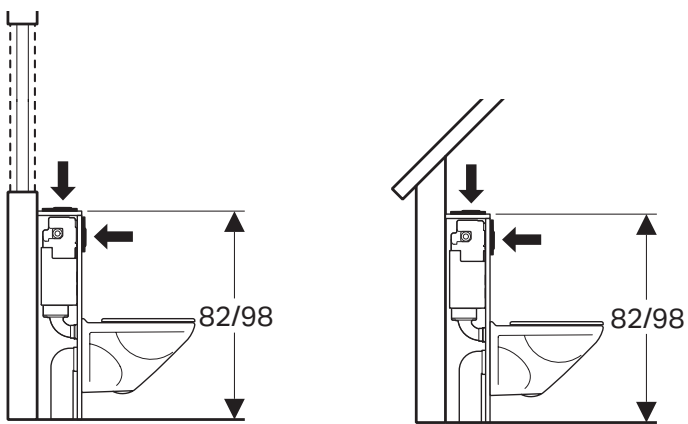

- Available in various dimensions and suitable for any construction situation.
- All models are equipped with a high-end flush valve and a top silent fill valve, exceeding Sound Class 1 requirements.
- Easy maintenance at any time through a service opening.
- Exceptional spare part security for all function-maintaining components for 50 years.

←
12 CM CISTERN-THICKNESS
In the wall or in front of the wall. Flushing actuation from the front. Choose either Sigma, Omega or Delta 12 cm.

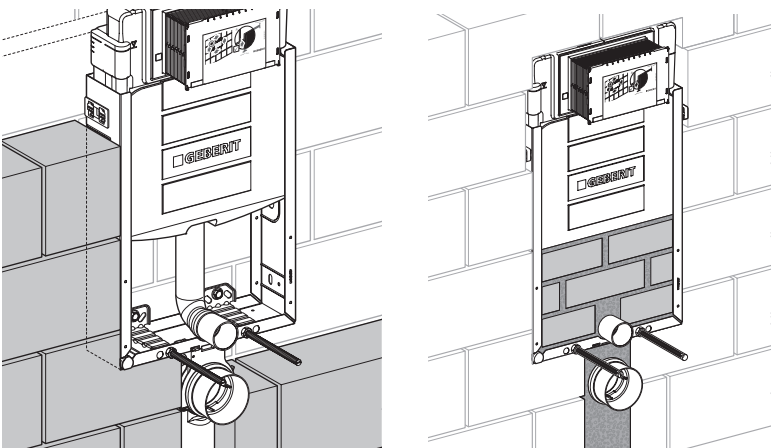

←
8 CM CISTERN-THICKNESS
Solution for thin wall constructions or for space-saving installation in front of the wall, flush actuation from the front. Choose a Sigma 8 cm.

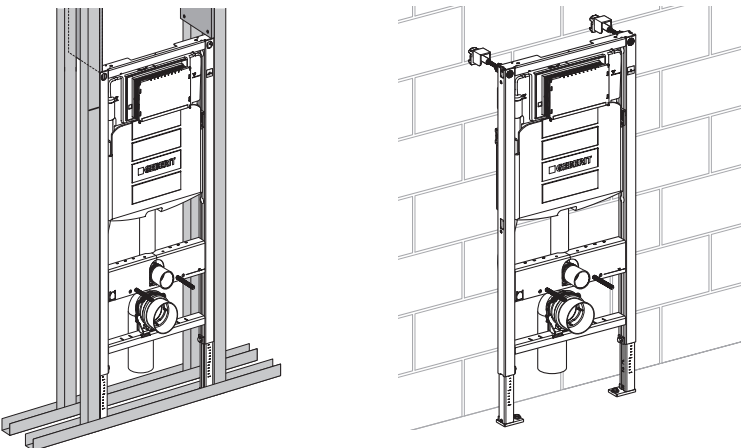

←
LOW-HEIGHT SITUATIONS
Solution for low-height installation with element heights 82 cm or 98 cm choose an Omega cistern.

SOLID WALL INSTALLATION

Geberit Kombifix installation elements are exclusively suitable for solid construction. They must be fastened in front of or inside a solid wall and then subsequently brick lined.

DRYWALL INSTALLATION

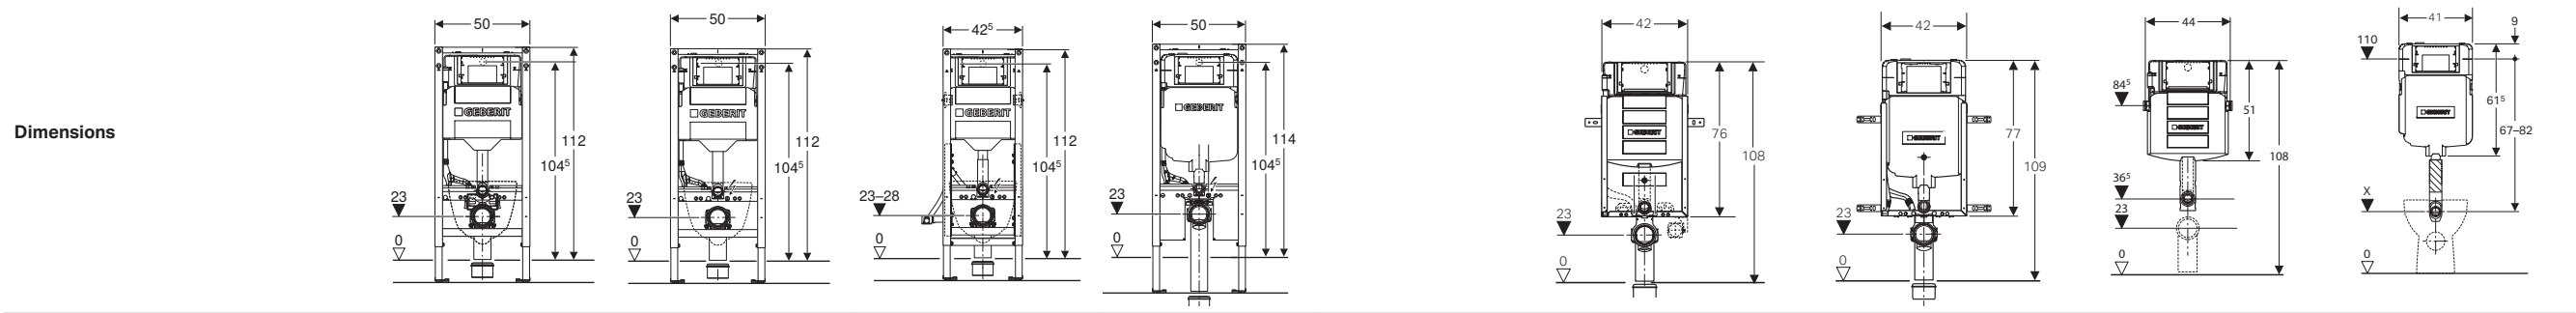

Geberit Duofix installation elements are suitable for all drywall construction situations with a drywall system. It is possible to create complete room-height prewalls or partition walls.
