GEBERIT ALPHA CISTERNS

NEW ARRAY OF FUNCTIONS

The range of the Geberit Alpha cisterns has been improved and the application fields widened:

- Top and front actuation
- Two installation heights possible
- Water connection in two positions possible: at the back or at the side
- Easier maintenance accessibility

PREMIUM QUALITY

The sustainably produced and long-lasting products are highly durable and leak-proof. Geberit's cisterns and actuators stand for premium quality.

EASY TO CLEAN

A wall-hung toilet ensures easy and efficient cleaning and makes your bathroom more hygienic.

FULLY EQUIPPED

The Geberit Alpha cisterns are equipped with a high-end flush valve and a. No need to buy extras. Brackets for the inwall installation are also included.

SPARE PARTS AVAILABILITY

The availability of functional spare parts is guaranteed for 50 years, providing long-term operational safety.

WATER SAVING BY DUAL FLUSH TECHNOLOGY

The reliable components inside the cistern allow you to adjust the flush volume for two amounts of water. The big flush can be easily adjusted from 6 to 4.5 litres, the small flush volume is 3 litres.

TOP OR FRONT ACTUATION

For low-height situations Geberit Alpha cisterns offer the possibility to choose a top or front actuation.

CONSTRUCTION WITHSTANDS WEIGHTS OF 400 KG

There is no risk of the wall-hung toilet coming away from the wall as the construction is tested to bear a weight of 400 kg.

The water connection can be done either from the side or from the back.

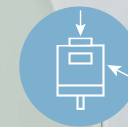

New crossbar for panelling support

Improved wall-anchoring for easier installation

Cisterns available in two different heights

Top and front actuation possible

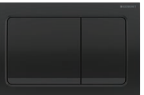

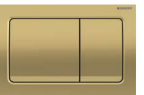

CLEAR DESIGN IN FRONT OF THE WALL

The Geberit Alpha actuator plates are all offering dual flush technology. The classic variety of colours and forms is lean and making sure that there is an actuator plate for every bathroom.

GEBERIT ALPHA ACTUATOR PLATES:

- FEATURES**
- Dual flush
 - 213 mm x 142 mm
 - Material: plastic

INSTALLATION OPTIONS

GEBERIT KOMBIFIX: SOLID WALL INSTALLATION

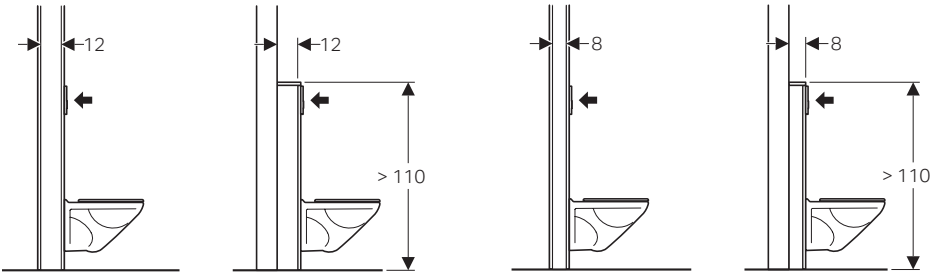

Geberit Kombifix installation elements are exclusively suitable for solid construction. They must be fastened in front of or inside a solid wall and then subsequently brick lined.

GEBERIT DUOFIX: DRYWALL INSTALLATION

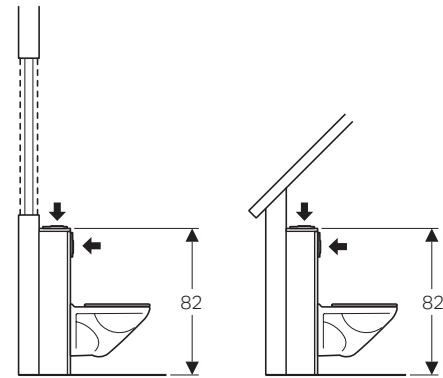

Geberit Duofix installation elements are suitable for all drywall construction situations with a drywall system. It is possible to create complete room-height prewalls or partition walls.

STANDARD HEIGHT WITH FRONT ACTUATION

LOW HEIGHT WITH TOP OR FRONT ACTUATION
